Criteria of eligible Securities for Trading with the support of a Market Maker:

The securities that are eligible for trading with the support of a market maker will be based upon the adoption of the following criteria:

1. Trading Volumes:

- a. If the percentage of the total traded value of the security to the total market traded value during the period under assessment (six months) is less than 1%, OR the percentage of the total traded value to the market capitalization of the security (turnover ratio) at the end of the period under assessment is less than 10%.
- b. The number of trading days on the security is less than 50% of the total number of trading days during the period.
- c. The number of transactions executed on the security during the period are less than 150 transactions.
- d. The number of shares traded during the period are less than 500 thousand shares.
- e. The total traded value of the security during the period is less than AED 100 million

2. The Free Float Shares:

- a. If the conditions on the trading volumes of the above are all met, then the number of free float shares available for trading of the security must be at least 10% of the total number of listed shares.

The review of securities that are eligible for trading with the support of a market maker will be done twice a year: in January and July, depending on the period of the last six months of trading.
